ABOUT SAKE

JUNMAI

Made with only rice, water and koji mold. The rice used must be polished to at least 70%. Often a full and solid flavor profile, clean and well structured

HONJOZO

Made with rice, water, koji and a very small amount of pure distilled alcohol ("brewers' alcohol") to help extract flavor and aroma. Light, mildly fragrant, easy to drink

JUNMAI GINJO / DAIGINJO

Brewed with labor-intensive steps, eschewing machinery for traditional tools and methods, using highly polished rice (at least 60%) and fermented at colder temperatures for longer periods of time. Light, fruity, refined
